

Our Services Are...

Affordable.

We are a non-profit community health center primarily serving clients who are underinsured or uninsured. We provide services on a sliding fee scale.

Culturally Appropriate.

Our aim is to increase access and reduce disparities in health care in the African immigrant and refugee community. Our staff are sensitive to the cultural differences between the American medical system and the community's perspective.

Community Oriented.

We believe in a holistic approach to health care. We don't just treat illnesses — we consider patients' lifestyle, behavior, family medical history, process of acculturation, ability to communicate, and environmental factors.

Our Services

We offer quality medical care to people of all ages, income levels, occupations, and backgrounds. However, our services are particularly oriented to the needs of the African immigrant and refugee community.

Beyond quality medical care, we provide patient education on healthy lifestyle choices, preventative care, early detection, and risks to well-being.

Services are provided by licensed physicians on a sliding fee scale. We also offer interpreting services in many languages, including many of those spoken by Africans.

Call today to make an appointment.

Walk-ins welcome.

651-287-5223
